

RETIREMENT SAVINGS MADE EASY, PEASY LEMON SQUEEZY...

WE COULD ALL USE A LITTLE SIMPLE IN OUR LIVES

If you have 100 employees or less and want a retirement savings plan that is straightforward and virtually effortless, the lesser known **Simple IRA** plan fits the bill.

When compared to a 401(k) Plan, a Simple IRA is an easy to administer plan that provides the same underlying savings features of the 401(k) plan but with a streamlined design that reduces the amount of administrative efforts with no annual compliance testing or 5500 filing.

IIABA's Big "I" IRA Program has partnered with administrative service provider iraLogix to provide state of the art administration along with low cost investments from a variety of fund families including

the ever-popular Prudential Stable Value Fund. Additional benefit programs are available for you and your employees through the Big "I" including:

- ▶ **The BIG I MEP 401k Plan**
- ▶ **Group life insurance**
- ▶ **Group short- and long-term disability**
- ▶ **Group dental**
- ▶ **Group vision**

Our programs are designed to meet the needs of Big "I" members with maximum flexibility at a competitive cost.

Reach out today to see how easy peasy it can be!
